ABOUT US

Catalyst is a premium lifestyle accessories brand that creates innovative consumer products to enable people to explore and share their world.

Josh Wright is an award-winning industrial designer who graduated from the Art Center College of Design and June Lai is the research, development and business partner at Catalyst. Together, after seeing a need for a product that fit their needs but did not yet exist, they designed and developed an iPhone case that would protect their products through their many outdoor and underwater adventures. Since Catalyst's inception, the brand launched on Kickstarter in 2011 and introduced the highest performance line of everyday cases, accessories and sleeves featuring their own proprietary technology. Catalyst products are available in major international retailers, including Best Buy, Target, West Marine, InMotion Entertainment, Bic Camera, Yodobashi, Yamada Denki, JB HiFi, Harvey Norman, Myer, Virgin Megastores, Media Markt, Fnac, Elkjop, and Colette.

JOIN THE ADVENTURE

“Twenty years from now you will be more disappointed by the things you didn’t do than by the ones you did do. So throw off the bowlines. Sail away from the safe harbor. Catch the trade winds in your sails. Explore. Dream. Discover.”

– Mark Twain

Catalyst Case for Apple Watch 42mm

Introducing the only fully functional waterproof case for Apple Watch rated to 5 atm. This award-winning case does not compromise on good looks or performance. Each unit is factory tested waterproof to a pressure equivalent to a depth of 165 ft (50m), making this innovative case the essential accessory that allows you to take your Apple Watch with you everywhere.

Catalyst Floating Lanyard

This is the essential accessory to keep your waterproof gear, device or any attached items afloat up to 250g / 350g. No matter how waterproof your gear is, it does not matter if it's lost on the bottom of the ocean or lake. This lanyard is designed to comfortably fit any wrist size. Its buoyancy will keep it floating on the surface of the water if you become separated from your device.

This accessory gives you extra peace of mind knowing that you won't lose your device even in open water.

Catalyst Waterproof Sleeves

Designed to carry and protect your tech devices anywhere, Catalyst waterproof sleeves are stylish and functional. Cushioned with foam, these minimalist sleeves incorporate welded waterproof construction and a double seal water tight closure. Use them as your stand-alone sleeve, tuck them into your backpack, purse or tote, or turn them into an ultra slim shoulder bag or backpack with the included straps.

Versatile, stylish and functional, now you can go anywhere in any weather with your device - business meeting, beach or coffee shop.

ESPN

“That shiny new Apple Watch under the tree already has the brains, so why not give it some bona fide sports-watch brawn? This case from Catalyst provides both waterproof and impact protection without interfering with any of the watch’s functions.”

– ESPN.com

Macworld

“If a developer like Active in Time can write an app you can interact with using only the Digital Crown (which works just fine underwater), and Catalyst’s \$60 waterproof case helps swimmers breathe easier without worrying that water could creep in after enough laps in the pool, the Apple Watch could wind up being the best swimming tool since goggles.”

– MacWorld.com – Susie Ochs

PLAYBOY

“The Apple Watch does a lot of things. One thing it can’t do is get wet, which sucks if you want to use its activity tracker while swimming or surfing. Luckily, Catalyst developed a waterproof case that lets you use the Apple Watch in all conditions. Not only can it get wet, it meets military specifications for drops and works with the heart rate monitor, microphone, and speaker.”

– Playboy.com – Justin Tejada

MAXIM

“Catalyst case for Apple Watch 42mm. Want your Apple Watch to go everywhere you do, AKA under water? Then this is the only case you’ll ever need. \$59.99”

– Maxim.com

iPhone^{Life}
MAGAZINE

“The makers of my favorite waterproof iPhone case have finally come out with the Catalyst for the iPhone 6 Plus, and I continue to be tremendously impressed. They’ve taken a design that was already exceptional and tweaked it with subtle refinements producing an end product that happens to be what I would consider, the best waterproof case on the market.”

– [iphonelife.com](#) – Siva Om

DIGITAL TRENDS

“You’ll be hard-pressed to find a better option than this case from Catalyst, if you need something that can genuinely handle a dunk.”

– [digitaltrends.com](#) – Simon Hill

appadvice

“With a simple waterproof case, you can easily turn your iPhone into a perfect underwater camera that can capture your kids playing in the pool, an interesting dive in the ocean, and much more. One of the best is Catalyst’s option. It will protect your iPhone in up to 16.4 feet of water and also fend off drops from up to 6.6 feet. The soft-touch rubber bumper makes it easier to hold your handset.”

– [AppAdvice.com](#) – Brent Dirks

GEAR PATROL

“These cases are laudably slim given their ability to resist water intrusion (even in pools and oceans), and they’re decidedly un-ugly — an unusual trait in the world of rugged cases. Best of all, the cases keep things sealed up while still providing access to switches, buttons, and the entire screen, so you won’t have to pop your phone in and out to use it away from water.”

– [GearPatrol.com](#) – Darren Murph
