¹ Schedule can be set 1 time per day, 7 days a week - the Neato app is required for D3 and D5 scheduling

² Standard filters provide a very high cleaning performance

³ High Performance filters provide a very high cleaning performance and good air filtration. Best for maximizing vacuuming performance.

⁴ Ultra Performance filters provide a very high cleaning performance and excellent air filtration. Best for those concerned with allergies and for minimizing particulates in the air.

⁵ 1 cleaning cycle includes 3 cleaning runs with 2 recharges of the battery.

Neato Genuine Accessories

Always use Neato Genuine accessories to keep your robot operating at peak performance.

Use of unauthorized 3rd party accessories can damage and void your warranty.
