INTRODUCING THE TILE SMART LOCATION PLATFORM: EMPOWERING COMPANIES TO MAKE MORE PRODUCTS FINDABLE

ABOUT TILE'S PLATFORM

Tile gives everything the power of smart location. Tile's devices, network and mobile app work together to help people locate the things that matter to them most. Now Tile's Smart Location Platform enables companies to build Tile's smart location technology directly into their own products. Tile's global community spans 200 countries and territories and helps people locate more than half a million items every day.

KEY FEATURES

- Easy access to the entire technology stack and network so that companies can enable their products with smart location in a matter of weeks.
- Tile is the world's largest lost-and-found community. Products utilizing Tile's Smart Location Platform instantly benefit from plugging into the power of Tile's global network.
- Tile's award-winning mobile app pairs with all Tile Smart Location products and will display the product's last known location if it is ever lost or misplaced.
- Tile's Platform's backend infrastructure is designed to scale.

CURRENT PARTNERS

- [Nomad](#) - creators of portable, rugged smartphone and smartwatch accessories will incorporate Tile's smart location into a new battery pack for iPhones and iPads.
- Electric scooter company [EcoReco](#) will integrate smart location into their e-scooters.
- [Zillion](#) - the ultimate smart wallet with built-in powerbank and cable adds smart location technology powered by Tile.

BECOME A TILE PLATFORM PARTNER

Contact bizdev@thetileapp.com to learn more about integrating with the world's largest smart location network.

ABOUT TILE

Tile gives everything the power of smart location. Tile's devices, network and mobile app work together to help people locate the things that matter to them most. Tile's global community spans 200 countries and territories and helps people locate more than half a million items every day. The Tile Smart Location Platform makes it possible for other companies to build location into their own products. The company is based in San Mateo, CA and backed by Bessemer Venture Partners, GGV Capital and Khosla Ventures. Tile is a top seller in retail stores and is sold online around the world.
